PROFILE

A highly motivated and community-focused first-year Computer Engineering student with demonstrated leadership, communication, and organizational skills. Passionate about technology and community building, with a goal of fostering a vibrant tech culture on campus by bridging the gap between students and industry opportunities. Eager to leverage experience in event coordination and student representation to build and lead a successful campus program.

EDUCATION

B.Tech in Computer Engineering	Expected 2029
<i>MIT Academy of Engineering (MITAOE), Pune</i>	

LEADERSHIP & COMMUNITY EXPERIENCE

Elected School Leader	2022
<i>Vyankatesh Balaji School</i>	

- Successfully developed and executed a school-wide election campaign, showcasing strong communication and public speaking skills.
- Acted as the primary liaison between the student body and school administration, advocating for student interests and contributing to school governance.
- Organized and led student meetings, demonstrating skills in team leadership and agenda setting.

Best Volunteer Award	2022
<i>VBS Annual Event</i>	

- Recognized for exceptional dedication and teamwork in the planning and execution of a major school event.
- Spearheaded logistics and coordinated responsibilities among a team of volunteers to ensure the event proceeded smoothly and effectively.

TECHNICAL PROJECTS

Personalized Developer Roadmap Generator	Client-Side Application
<i>Technologies: HTML, CSS, JavaScript</i>	

- Developed a web application that generates curated learning paths for aspiring developers in fields like Frontend, Backend, and *AI/ML*.
- Engineered the application using vanilla JavaScript to dynamically display content, creating an interactive and user-friendly experience.
- Designed as a tool to help fellow students navigate their learning journey, demonstrating a passion for mentorship and knowledge sharing.

SKILLS

Community & Leadership:	Public Speaking, Event Coordination, Team Leadership, Community Building
Languages:	C++, Python, JavaScript, SQL
Web Technologies:	HTML, CSS
Developer Tools:	Git, GitHub, VS Code
Core Concepts:	Algorithms, Data Structures, Software Development Lifecycle (via CS50)

CERTIFICATIONS

CS50: Introduction to Computer Science	Issued by Harvard University (edX)
